Delivery Options

Auto Fill: We know that you are busy and don't want to always be watching your LP tank gauge and that's why we offer an *Auto Fill* option. We use software that forecasts your propane usage based on your appliances and past and current weather information. Once our records indicate you need a fill, we work you into our scheduled route (without you having to call us). We ask that you kindly let us know if you add any appliances or will be having irregular usage patterns. **Please remember that we cannot guarantee that you will never run out of propane.** *If you feel like it's been awhile since we've been there, please feel free to take a look at your tank gauge and give us a call with your tank percentage.*

*To take advantage of the *Auto Fill* program, customers must be credit-approved and remain current on propane payments. Quick Oil Company reserves the right to deliver this product, at any time, on a scheduled route basis.

****The best candidates for *Auto Fill* are homes that have propane as their primary heat source with consistent winter usage of 600 or more gallons.**

Will Call: Customers on *Will Call* are responsible for monitoring their own usage and calling our office when they need a delivery. We will then deliver the propane within the next five business days. Customers should call our office when their tank gets down to 25%. The minimum delivery is 300 gallons.

If you run out of propane or must have a delivery before the five business days, the following emergency fees will apply:

Monday-Friday, 7am-2pm	\$75 Delivery and \$45 Leak Inspection (if you run out)
After Hours/Weekends/Holidays	\$125 Delivery and \$45 Leak Inspection (if you run out)

***The customer must be home at the time of delivery for the Leak Inspection.** For your safety, should you run out of propane, close the service valve on the tank and call us at 1-800-475-4994.

****The best candidates for *Will Call* are homes that heat with a different primary source, other than propane. Also included are shops and outbuildings.**

Based on the responsibility of the customer to monitor the tank, the inconvenience and necessary fees should you need emergency services; we recommend that you sign up for the *Auto Fill* program.

This delivery agreement will remain in affect continuously, year after year, until Quick Oil Company is notified in writing by the customer.

Auto Fill: Quick Oil Company will deliver propane to me on a scheduled route basis. I will notify them of any changes we make that will affect our propane usage or system.

Will Call: I will monitor my own tank and call Quick Oil Company when my tank gets down to 25%. I understand the minimum delivery is 300 gallons. I also understand about the emergency fees should I need them to deliver propane before the five business day notice.
